

Consultation Conference Call Instructions

There are recurring monthly or bi-monthly discussions concerning different aspects of the EASA program and work related to specific team roles.

EASA Call Definitions and Invited Participants:

Clinical Consultation: A discussion of successes and challenges of working the EASA model with participants and support systems. We will focus on areas where you are stuck or have questions with implementing the model. This may also include review of assessments & plans.

This call should include all EASA clinicians.

MFG Consultation: A discussion of successes and challenges of working the MFG model. We will also review videos of groups as they are available.

This call should include all EASA clinicians who facilitate the MFG.

**Clinical and MFG consultation are combined into one meeting/call for each EASA Region.*

Screeners Call: A discussion and review of challenging screenings and referrals to EASA. This call will also focus on working with referents.

This call should include all EASA screeners.

Medical Providers Call: A discussion of current research, best practices, and case consultation for LMPs, NPs, FNPs, etc.

This call should include all EASA medical providers.

OTs and Nurses Calls: A discussion and review of these specific roles with EASA.

The OT call should include all EASA OTs and the Nurses call includes all EASA Nursing roles, statewide.

Non-OT Occupational Therapy Call: A discussion for teams without an OT about bringing OT elements into their work.

This call is for anyone who is not an OT, especially those who do not have an OT on their team.

Strategy Call: A discussion around larger EASA developmental goals and updates at the national and state level.

This call should include all EASA supervisors and/or directors.

EASA Regions / Conference Call Areas of Inclusion:

Around 300 people work with EASA statewide (!)

Some of the calls are separated into regions, to keep group sizes manageable and discussions meaningful.

This map shows which "EASA Region" your program belongs to.
