Data Entry (1 of 9)

• 5 types of ‘events ‘in REDCap
  • Participant
  • Referral
  • Intake
  • Hospitalizations
  • Quarterly Outcomes

• Do not skip fields in a form when performing data entry – missing values can impact the additional fields displayed
Quarterly Outcomes

- **Quarter 1** = first quarter in EASA after someone has their first intake visit
- **Quarter 2** = second quarter in EASA
- **and so on....**
Data Entry (3 of 9)

A. The Event Grid is a graphical representation of which data entry forms will be completed at each time point (event). The data entry forms are listed down the left column and the time points (events) are listed across the top of the grid. The individual forms are represented by colored buttons.

B. The color of the button represents the status of the form.
   - For the EASA Participant Information database there are 10 different data entry screens. Not all screens are completed at a given event (visit).
   - If you want to navigate through the record for this subject, click on the buttons to select the form you want to see.
Always start entering data in the event closest to the left side that matches.

Always complete the Form Details form first for an event. There is skip logic in the system that changes the fields displayed/required to be completed.

No information to complete when a participant

For Missing Quarters:

• Enter missing quarters by entering the Form type, Year and Quarter as well as the Event was not done.
